

Gender Pay Gap Reporting - Snapshot date of 31st March 2025

In April 2017, the government introduced Gender Pay Gap legislation, which required all employers of 250 or more employees to publish their Gender Pay Gap. The snapshot for employees in scope each year is 31st March, i.e. the following refers to a snapshot date of 31st March 2025.

Northern Arch Learning Partnership is committed to the fair treatment and reward for all staff irrespective of gender.

The Gender Pay Gap as a high-level indicator of female and male earnings, which is affected by workforce distribution.

The Gender Pay Gap is defined as the difference between the mean (average) or Median (actual midpoint) hourly rate of female and male employees expressed as a percentage. It is worth noting that the Gender Pay Gap is not a tool to measure equal pay, i.e. the provision of equal pay for work of equal value (paying men and women equally for equivalent work).

Northern Arch Learning Partnership does not operate a bonus scheme therefore there is no data to publish for staff bonuses.

Northern Arch Learning Partnership Gender Pay Gap on the snapshot date of 31st March 2025 was:

The Mean Gender Pay Gap – Women's mean hourly rate is 22.79% (18.29% in 2024) lower than men's; when comparing mean hourly rates, women earn 77.21p for every £1 men earn.

The Median Gender Pay Gap – Women's median hourly rate is 34.91% (30.03% in 2024) lower than men's. When comparing median hourly rates, women earn 65.09p for every £1 men earn.

The table shows that within Northern Arch Learning Partnership there is a higher proportion of women in all quartiles, but especially in the lower quartile. Occupations in this quartile include catering, cleaning and lunchtime supervision.

Northern Arch Learning Partnership has structured pay scales, which are not gender specific. Northern Arch Learning Partnership is also committed to promoting equality and aim to recruit an appropriately qualified workforce that is representative of all sectors of the community.

We believe that the overall Gender Pay Gap reflects workforce composition rather than pay inequalities. Through our equality objectives, we will seek, wherever possible to encourage participation and recruitment to unrepresented roles.
